DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-6, 8-20, 22, 25 allowed.
2. The following is an examiner's statement of reasons for allowance:

For claim 1, the prior does not teach a microbrowser module configured for communicating with an external source of information including a WAP network undergoing troubleshooting; and a diagnostic module configured for analyzing information associated with elements of the WAP network in a predetermined sequence configured to emulate a sequence of a process flow of signals through the elements of the WAP network undergoing diagnosis by the portable diagnostic device; an input device located on the housing and coupled to the processor; and a display screen located on the housing and coupled to the processor to display information pertaining to operating parameters of the WAP network undergoing diagnoses.

For claim 22, the prior art does not teach a computer-readable medium having stored thereon a set of instructions which, when executed by a processor, cause the processor to: request information from an external source associated with an element of a WAP network; receive the requested information from the external source element of the WAP network; and analyze the received information in a predetermined sequence to emulate a process flow of signals through elements of the WAP network for diagnosis of the WAP network
